SPORTSOS

Run your sports academy, club or facility from one place

Members, coaching, fees with Razorpay and UPI, court booking on real floor plans, door access, payroll, ball-by-ball cricket scoring with live scores, and apps for parents, staff and scorers — for every sport you run. White-label ready.

Academies run on spreadsheets, WhatsApp and memory

The everyday problems

- ✗ Fees chased one family at a time; payment screenshots to match by hand
- ✗ Attendance on paper, so nobody notices a player drifting away
- ✗ Parents asking the same questions on WhatsApp every week
- ✗ Courts and nets sitting idle outside training — or double-booked
- ✗ Anyone can walk in, and the front desk can't tell who has paid
- ✗ Payroll, PF and ESI worked out in a separate spreadsheet
- ✗ Match scores kept on paper; parents asking "what's the score?"

One connected platform

- ✓ Monthly invoices, reminders and UPI payment into your own Razorpay account
- ✓ One-tap attendance by coaches, plus automatic check-ins at the door
- ✓ A member app where families see fees, schedules and feedback
- ✓ A booking site with to-scale floor plans that can't double-book
- ✓ Door access decided by your rules — child-safe by design
- ✓ Payroll with Indian statutory rules and books that export to Tally
- ✓ Ball-by-ball scoring app with live links parents open from WhatsApp

PLATFORM OVERVIEW

Multi-sport

11 sports built in — Cricket, Football, Tennis, Badminton, Pickleball, Squash, Table tennis, Basketball, Volleyball, Hockey, Swimming — each with positions, skills and development areas. Add your own sports.

Multi-facility

Run many venues under one organisation. A facility switcher filters everything; staff can be limited to their own venue.

White-label

Partners offer SportsOS under their own name, logo, colours, domains and apps. "Powered by nicor.ai".

Owners

Fees, attendance and utilisation across every facility

Coaches

Rosters, attendance, notes, assessments, goals and match scoring

Parents & players

Pay by UPI, schedules, feedback, QR pass, live scores

Front desk

Bookings, walk-ins, door scans and payments

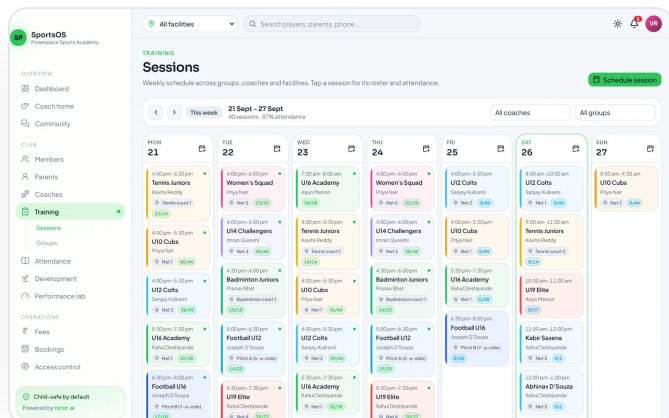

Partners

Your brand on the web app, emails and apps

FEATURES

Members & coaching

One record per player, shared by the office, the coaches and the family.

Members & guardians

Player profiles with sport, position and sport-specific attributes (batting hand, bowling style, preferred foot...). Guardians get their own login and see only their children.

Import from Excel or CSV

Upload your existing sheet, map the columns, and every row is validated before anything is saved: guardians for under-18s, duplicates, groups, coaches, dates. Fix the error rows and re-upload.

Training groups & sessions

Weekly schedules across groups, coaches and facilities, with clash checks for coaches and courts. Cancel or complete sessions in one tap.

Attendance

One-tap Present / Late / Absent / Excused from the staff app, plus automatic check-ins from the door. Trends show who is drifting away.

Coach notes, assessments & goals

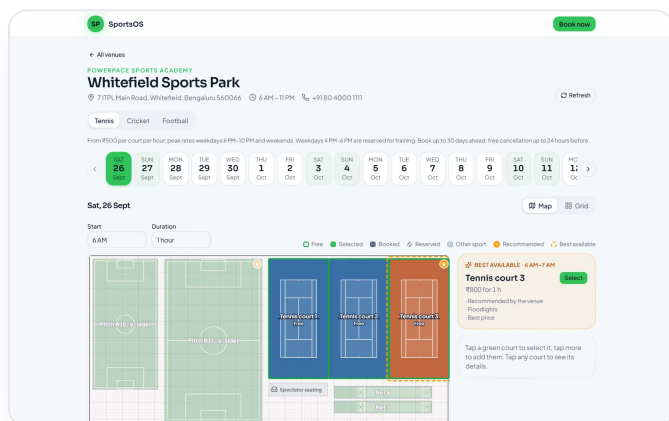

Notes by category (optionally shared with parents), skill assessments using the player's sport, and goals the family can follow.

Multi-sport by design

11 sports built in with their positions, skills and development areas — and you can add your own sports.

Bookings & facilities

Fill idle courts, nets and pitches without ever double-booking.

Multi-facility

Run any number of venues under one organisation. A facility switcher filters the whole workspace, and staff can be limited to their own facility.

To-scale floor plans

Customers pick a court on a real floor plan with proper court markings — or switch to an hourly grid.

"Best available" suggestion

SportsOS recommends the best free court for the chosen time, using the venue's preferences, features and price.

Public booking site

Each facility gets a booking page — no account needed. Holds expire automatically and payment happens online.

Pricing that matches your venue

Off-peak, peak and weekend rates per court. Training hours can be kept back so bookings never clash with academy sessions.

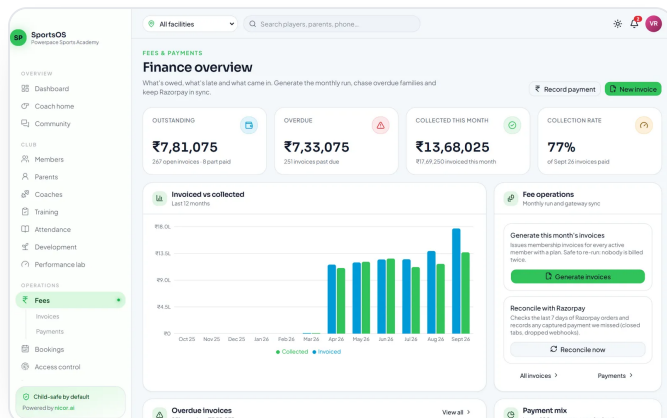

No double bookings

Overlaps are blocked by the database itself, even when two people click at the same moment. Front desk can add walk-ins from the staff app.

FEATURES

Payments & finance

Every rupee in one ledger — collected into your own Razorpay account.

Fees & invoices

Monthly membership invoices generated automatically (never twice), with discounts, scholarships, voids, reminders and overdue tracking.

Razorpay Checkout & payment links

Parents pay by UPI, card or netbanking in the app or web — or from a payment link you share on WhatsApp, SMS or email, without signing in.

Your money, your account

Each club connects its own Razorpay account, so money settles directly to you. Key secrets are encrypted and never shown again.

Recorded exactly once

Signed webhooks, re-checks with Razorpay and automatic reconciliation mean a payment is never lost or counted twice. Refunds included.

Double-entry accounting

Invoices, payments, refunds, payroll and expenses post automatically. Trial balance, P&L, balance sheet and Tally XML export for your accountant.

Gateway fees & GST accounted

The gateway fee and GST on each payment are read from Razorpay and posted to your books.

Access & safety

Door decisions made by your club's rules — safely, on the server.

Biometric & QR entry

Fingerprint readers connect through a small local gateway; fingerprints never leave your premises — only an opaque reference does.

Server-side decisions

Every scan is decided by SportsOS: granted, granted with an alert, supervised entry or denied — based on membership, fees, session times and overrides.

Child-safe by design

Terminals show neutral messages and never money. Minors are never left outside because of fees — staff are alerted instead.

Overdue policies

Choose how overdue adult members are handled: flag, supervised entry, or deny.

Rotating QR door pass

Members show a QR pass in the app that changes every minute and works only once, so a screenshot can't be reused.

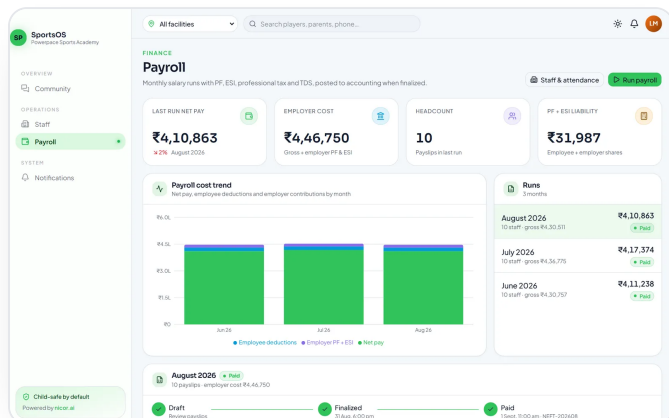

Staff scan with a phone

The staff app scans passes with the camera and applies exactly the same rules as a door. Staff see the reason; the member doesn't.

FEATURES

Staff & payroll

Roles for everyone, and payroll that knows Indian statutory rules.

Roles that fit a club

Owner, administrator, finance, head coach, S&C coach, front desk and payroll manager — each sees only what they need.

Staff records, attendance & leave

A staff directory with salaries, attendance and leave that feed straight into payroll.

Statutory payroll

Configurable PF (with wage ceiling), ESI, professional tax and TDS. Loss of pay from attendance, unpaid leave and joining/exit dates.

Locked, posted, private

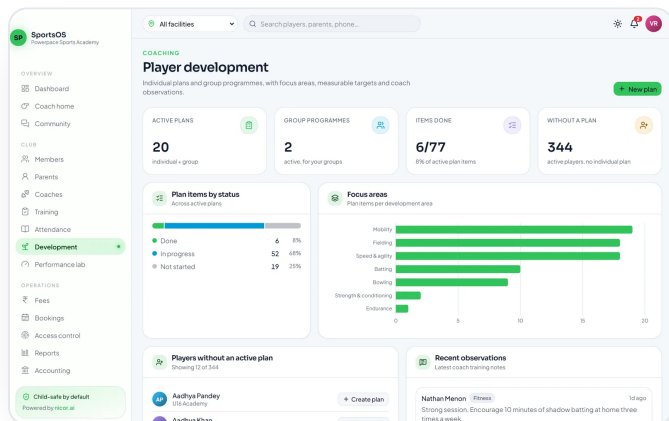

Finalising a run locks attendance and posts the journal. A separate payroll role keeps salaries away from other admins; only the last four digits of PAN and bank accounts are stored.

Payslips

Staff see their own payslips when they sign in.

Community & development

Keep families engaged and show every player how they are growing.

Community feed

A private feed for your club with posts by audience, staff pre-moderation, a reports queue — and deliberately no private messaging.

Development plans

Individual plans or group programmes with focus areas and measurable targets, and a progress view that pulls in ratings, goals and observations.

Performance lab

A metric catalogue, tests that record protocol, conditions and device, and sensor data imported from CSV with a preview first.

Public player profiles

Opt-in profiles for players to share. Minors need a guardian's consent (re-checked every time) and appear as first name and initial — never contact details, date of birth or payments.

Notifications

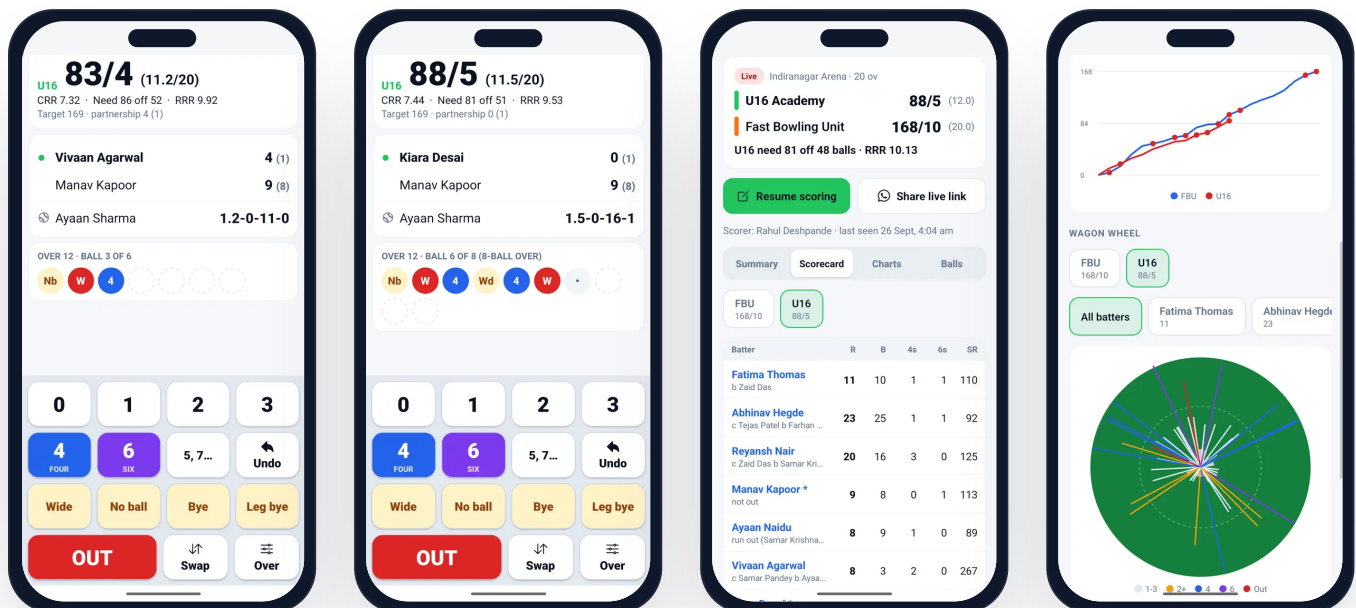

In-app, email and push notifications for reminders, receipts, notes and announcements.

Reports

Membership, revenue, outstanding fees, attendance, sessions and court utilisation — export any report to CSV.

Cricket scoring, better

Ball-by-ball scoring on one phone, live scorecards for everyone else — even with no signal at the ground. Included on every plan.

One-thumb, ball-by-ball

Big buttons for 0–6, wides, no balls, byes and leg byes, all 11 ways of getting out, free hits, retired hurt, penalty runs, change bowler, swap strike and a clear Undo.

Works with no signal

Every ball is saved on the phone first and syncs when the connection comes back. Retries are safe, so nothing is lost or counted twice.

Scorecards, charts & commentary

Full scorecards with extras, fall of wickets and partnerships, Manhattan and worm charts, a wagon wheel, a pitch map and ball-by-ball commentary written for you.

Stats that add up

Completed matches build each player's career batting, bowling and fielding stats, plus season leaderboards for runs, wickets, strike rate, economy, sixes and catches.

Any format, any over length

T20, T10, 50 overs or custom: players per side, bowler quotas, one or two innings — and balls per over for the whole match or a single over (an 8-ball match, or a 10-ball 15th over).

One scorer at a time

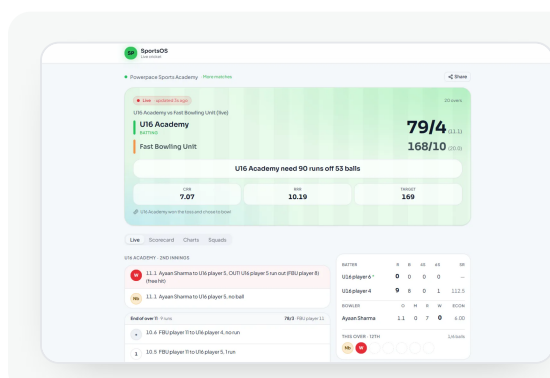

Only one phone scores a match, so two people can't record the same ball. Phone died? Another scorer can take over and carry on from the last ball.

Live links for parents

Share a match's live link on WhatsApp. Parents open it in any browser — no app, no sign-in — and the score refreshes on its own. Juniors are shown as first name and initial, or masked.

Public team pages

Each public team gets a web page with its record, squad, recent results, top run-scorers and top wicket-takers.

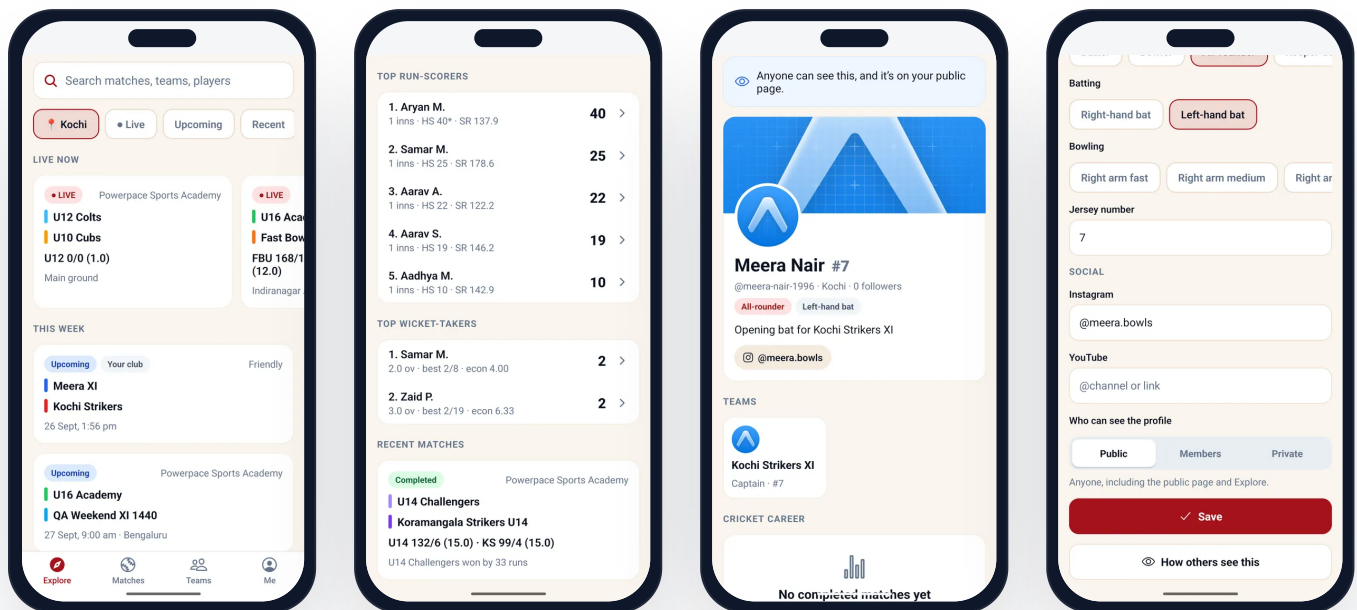

Parents follow from WhatsApp — no app needed

Share the live link in the team group. It opens in any browser and refreshes by itself: score, required rate, commentary, scorecard, charts and squads.

Player profiles, teams & discovery

One Nicorsports profile per player, across every club and every friendly — free for players.

Sign up with a phone number

Anyone can create a free Nicorsports profile with their mobile number and a one-time code — no club needed.

A profile worth sharing

Cover photo, playing role, batting and bowling style, jersey number, Instagram and YouTube, plus highlights: best batting, best bowling, 50s, 100s and 5-wicket hauls.

Parents in charge

Under-18s need a parent's consent, confirmed by a code sent to the parent's own phone. Parents manage their children's profiles, and juniors' names stay hidden publicly unless allowed.

Explore & follow

Search matches, teams and players across Nicorsports: live now, upcoming, recent results and suggestions near you. Follow a team, player or match to be notified when it goes live and when it finishes.

One profile, whole career

The same profile follows a player from club to club and into friendlies, so career stats and highlights keep adding up.

Claim your profile

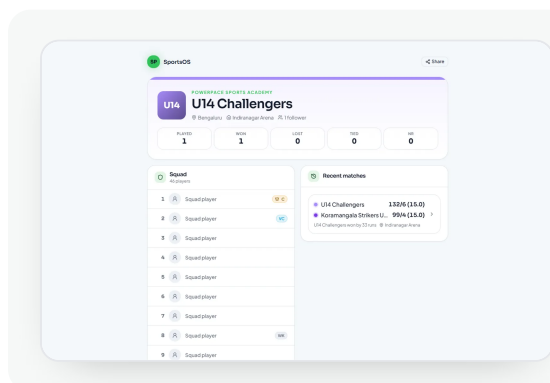

Played as a guest? The scorer shares a claim link; the player (or a parent, for a child) confirms with a code and the stats become theirs.

Teams that last

Save teams with squads, captains, vice-captains, keepers, jersey numbers and logos. Pick a saved team for a new match and its record and top performers build up.

Friendly matches

No club? Score friendlies in your own free space. Public friendlies count towards every player's career.

Public team pages, child-safe

Record, squad, recent results and top performers on the web. Juniors appear as first name and initial, or as "Squad player" without a parent's consent.

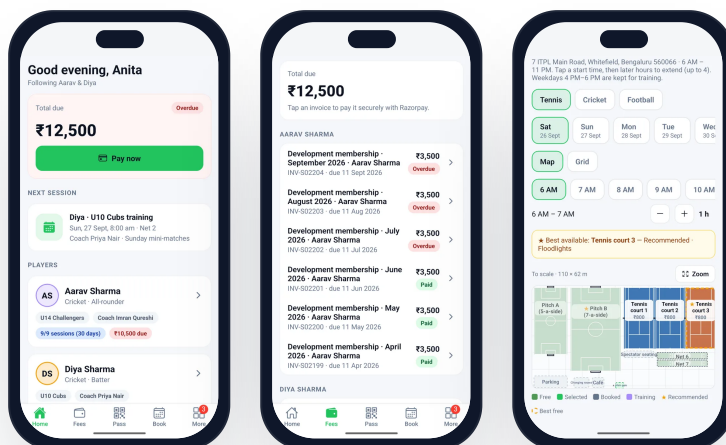

Three apps, one codebase, your brand

A member app for families, a staff app for coaches and the front desk, and a scorer app for cricket — all white-label.

Member app

For parents and players

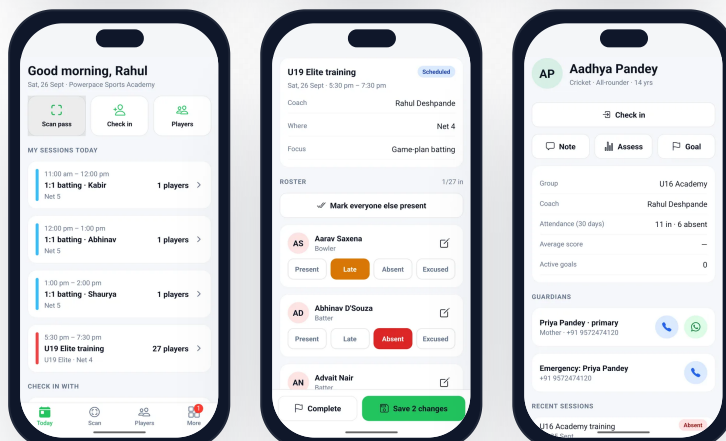

- ✓ See what's due and pay by UPI or card with Razorpay; receipts in the app
- ✓ Next sessions, attendance and schedule for every child
- ✓ Coach notes, goals and assessments
- ✓ Rotating, single-use QR door pass
- ✓ Book courts on the floor plan with the best free court suggested

Staff app

For coaches, front desk and facility managers

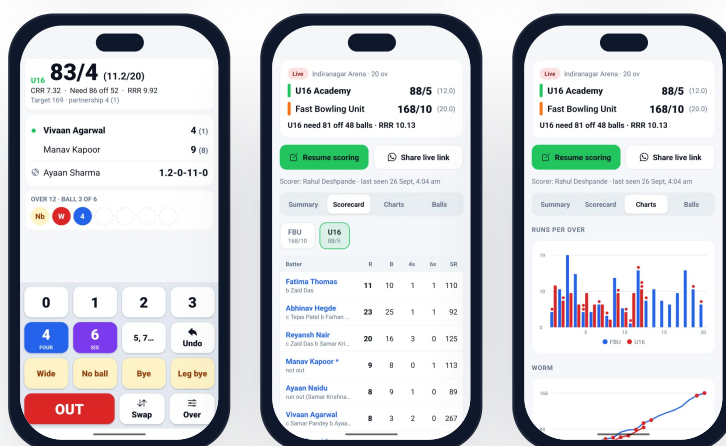

- ✓ Today: my sessions, the week ahead and players who keep missing
- ✓ One-tap attendance: Present, Late, Absent, Excused — or mark everyone else present
- ✓ Scan member QR passes at the door with the phone camera
- ✓ Player lookup with guardians (call or WhatsApp), notes, assessments and goals
- ✓ Walk-in bookings on the facility floor plan, paid at the desk

Scorer app

For coaches, scorers, players and parents

- ✓ One-thumb, ball-by-ball scoring with every extra, all 11 dismissals, free hits and Undo
- ✓ Balls per over for the whole match or any single over
- ✓ Works fully offline and syncs later — never counts a ball twice
- ✓ One scorer at a time, with take-over if a phone dies
- ✓ Scorecards, Manhattan and worm charts, wagon wheel, pitch map and commentary

COURT, NET & PITCH BOOKING

Book on a real, to-scale floor plan

Every court drawn with its real markings, at real size — with the best free court suggested for the chosen time.
